

North Dakota Birding Society  
 Corey Ellingson  
 1728 N. 22<sup>nd</sup> Street  
 Bismarck, ND

Dear NDBS Member:

Our society was formed in 1991 to promote bird study in North Dakota, stimulate public interest in birds, and to foster preservation of birdlife and habitat. There are many ways to work toward these goals. One of these ways is by keeping lists.

If you will send me your state and county totals I will add them for the North Dakota Birding Society Webpage. Hopefully this will be a challenge to some birders to cover new areas of the state and add to our knowledge of distribution in parts of the state that receive little coverage.

Please report your totals as of 31 December of \_\_\_\_\_ (*fill in the year providing for*) and return this form to me at your earliest convenience.

Results of the lists can be viewed at "<http://www.ndbirdingsociety.com/>" and click on "County Lists".

\_\_\_\_\_ Life Total for North Dakota

\_\_\_\_\_ Annual Total for the year
